

SEP Kundenreferenz: Wagner AG

Wagner AG realises future-oriented and innovative projects, outsourcing and cloud models. Wagner AG offers consulting, project services, outsourcing and cloud services and provides support in all aspects of digital transformation - as a one-stop shop with first-class, customised IT solutions from a single source.

"The SEP backup solution is very reliable and easy to maintain. It is also characterised by modern further development, so that it remains up to date for changing environments. The competent, helpful and readily available support should also be emphasised. The commitment and dedication of the support staff is outstanding - if only all companies had such good support." Martin A. Meier, Senior IT Solution
